## WEATHER CROP BULLETIN

THE SIGNAL OFFICE'S WEEKLY REPORT JUST ISSUED.

Temperature For the Past Week in Different States—The Rainfall—Crops in a Favorable Condition—Recent Hains Where Most Needed—Washington News.

WASHINGTON, May 24.—The signal office weekly weather crop bulletin states that during the past week the weather has been warmer than usual in all agricultural districts east of the Rocky mountains, except in Florida and Texas, as where the deficiency in temperature averaged about 35 degrees, a daily average of about 3 degrees below the normal. From the Mississippi valley eastward to the Atlantic coast the excess of temperature for the week was from 25 to 50 degrees, a daily average of about 5 degrees warmer than usual.

The excess of temperature for the season previously reported in the east gulf states, Tennessee, the central Mississippi and lower Mississippi valleys, has been increased by the warm weather of the past week, while the deficiency of temperature previously reported for the season in wheat and corn regions north of the Ohio river and in the upper lake region, Iowa and Minnesota has been reduced, thus leaving the thermal condition in these sections at the close of the week near the normal.

During the week there has been a deficiency of rainfall in all sections east of the Missouri and Lower Mississippi valleys, while slight excesses are reported in Texas, Northern Arkansas and Central Dakota. The deficiency in rainfall for the season is general, the only section reporting an excess being Northern New England, Ohio, West Pennsylvania, Northwestern Dakota, Oregon and Washington Territory. The large deficiency of rainfall previously reported east of the Mississippi continues.

In the cotton regions east of the Mississippi more rain is needed, but the recent showers and warm weather have left the crop in a favorable condition. In the west gulf states the excellent weather of the past week has improved the crop conditions except in northern Arkansas, where too much rain is reported. In the grain regions of the Ohio valley, and in Missouri, Kansas and Nebraska the weather during the week has been generally favorable for corn and wheat. In Michigan, Wisconsin and Minnesota, and northern Illinois the weather has been reported as favorable, but crops are likely to be injured, owing to the absence of rain.

In the hay regions of New England and the Middle Atlantic states the weather is reported as favorable.

Telegraphic reports received to-day show that local rains have fallen during the night in sections where they are most needed, viz: Minnesota, Wisconsin, Michigan, Dakota and Kansas.

Interstate Commissioners.

WASHINGTON, May 24.—To-day's mail brought to the interstate commerce headquarters a communication from the Mississippi railroad commission, urging a revocation of the suspension of the long and short haul clause. These state officers assert that a permanent suspension of the fourth section would emasculate the law to such an extent as to render it almost nugatory, and thus defeat the purpose of congress in passing the law. The enforcement of the law, they think, would afford great relief to the small interior towns of the country, and to people who live along the line of railroads and away from the trade centers. This is the class standing in need of protection against the unjust and oppressive exactions of railroad corporations. Produce, they say, put upon the line of the railroad at a point where there is no competition, is made to pay more than what is just and equitable, in order that railroads may indulge in a warfare of rates, not only unjust to the producer, and which would be suicidal to the railroads, were it not for proportionate increase to non-competitive points. The claim of the railroads, the Mississippi commission say, that the discrimination should be allowed to continue, in order to enable the railroads to compete with the waterways, should be addressed to congress. The necessity of extending governmental supervision to waterways may become apparent, and if so, congress can and should amend the law. The enforcement of the long and short haul section would, they think, greatly facilitate the work of their other state railroad commissioners, and would enable them to be of greater service to the public. Another communication, in a similar strain, from the city council of Central City, Neb., also urges the rigid enforcement of the long and short haul clause.

The National Drill.

WASHINGTON, May 24.—Camp George Washington was formally opened at noon to-day by Gen. August, the commandant. From this time on the camp will be under military discipline in its most vigorous sense. The feature of to-day was the dress parade at 5 p. m. The participants were the Louisville Legion, the Washington Light Infantry and the Twenty-second Ohio regiment. Col. John B. Castleton, of Louisville, has been designated to command the brigades. Music was furnished by the Marine band, under the direction of Professor Sousa. The services of the Society of the Red Cross have already been called into requisition. Privates C. E. Williams and G. D. Teel, of the Eighth Separate company, Rochester, N. Y., were brought to the hospital yesterday overcome by the heat. Surgeon J. E. Seely, of Rochester, ordered them to the hospital. They were immediately cared for, and there is no danger of any serious consequences. It so happened that Mrs. Ripley, who looked after the men, is also from Rochester. Mrs. Ripley has brought to the hospital Gen. Grant's camp chair which the general presented to her when he broke camp at City Point.

Presidential Appointments.

WASHINGTON, May 24.—The president to-day appointed to the revenue service of the United States: Horace Horsell, to be a chief engineer; Charles W. Munroe, first assistant engineer; William H. Warren, first assistant engineer; Orrick N. Turner and Dennis F. Bowen, second assistant engineers; also, the following named postmasters: Granville

Spurgeon, Santa Ana, Cal.; J. B. Bertrand, Canton, Dak.; W. H. Cooksey, Geneva, Neb.; Marvin Sackett, New Lebanon, N. Y.; Frank McKeon, Dobbs Ferry, N. Y. Secretary Lamar to-day made the following appointments: James K. Stone, of Minnesota; A. F. Naff, of Tennessee, and Robert T. Van Norden, of California, timber depredation agents; Albert W. Stiles, of Minnesota, clerk, at \$1,200 by transfer from treasury department under civil service rules.

A BLAST AT INGERSOLL.

General G. A. Sheridan Delivers His Anti-Infidelity Lecture in Chicago.

CHICAGO, May 24.—Gen. George A. Sheridan delivered his lecture, "The Modern Pagan," at the Chicago opera house last night to a large audience. Many prominent people were present. The lecture is in the nature of a reply to Col. Ingersoll's attacks upon Christianity, and was a masterly argument. It was not his purpose, Gen. Sheridan said, to utter a defense of Christianity, but merely to show the evil effects of the course adopted by Col. Ingersoll. That gentleman was charged by the speaker with declining to meet men competent to discuss the question with him. He fled from the field when the only really able man—Judge Jesse Black—opposed him.

In discussing the question of Christianity Col. Ingersoll creates captious issues; he utterly ignores the work of Christianity, and neither comprehends nor appreciates the excellence and magnitude of the achievements among us of the system he so flippantly assails. After discussing Ingersoll's methods of argument, Gen. Sheridan concluded a scathing denunciation of that gentleman by pronouncing him a moral and intellectual Anarchist. His peroration describing the Anarchist tendencies of infidelity was an outburst of eloquence. During the evening Gen. Sheridan was frequently applauded.

Queen Kapiolani.

NEW YORK, May 24.—Queen Kapiolani attended services at Trinity church Sunday morning and at St. Thomas church in the afternoon. She will make a tour of the elevated roads to-day by special invitation of managers. The accident to the Celtic disarranges the queen's plan of sailing in that vessel. She will probably take passage on the City of Rome for Wednesday morning. The story published of the insurrection of the Chinese in Hawaii is denounced as a canard started by an agent of certain California millionaires who are trying to prevent King Kalakaua's government from securing a loan from England. The presence of Claus Spreckle's son in New York at present is deemed significant by members of the Royal society here. It is said he has followed the party all over the country.

The Thistle's Owners.

NEW YORK, May 24.—The mystery surrounding the Scotch yacht, Thistle, with which Great Britain hopes to gain the American cup, is partially dispelled by the announcement that the principal owner is William Clark, of Newark, N. J., the millionaire manufacturer of thread, with factories in Newark and Scotland. Soon after the races last year, he visited Scotland and formed a syndicate with James Bell and others to build the Thistle. Mr. Clark's connection with the affair was to have been kept secret, but it leaked out.

Shot His Wife.

KOKOMO, Ind., May 24.—Another horrible tragedy occurred Friday evening four miles west of this city. John Harrison, a young married man, while fooling with a revolver, as he claims, discharged its contents into the groin of his young wife, inflicting a terrible wound, from which she died soon after in great agony. Harrison and his wife had been having a good deal of domestic trouble recently, and there is strong suspicion that the sad affair is nothing less than cold-blooded murder. The case will be thoroughly investigated.

Sixth Day of Sharp's Trial.

NEW YORK, May 24.—To-day was the sixth of the trial of Jacob Sharp for bribery in obtaining the franchise of the Broadway Surface road. The accused was so confident and buoyant in his demeanor and appearance when he came into court this morning as to cause an outpouring of congratulations from friends. Twenty-seven names of the sixth panel were in the wheel at the commencement of to-day's proceedings, having been left over since Friday. Herman Engel, dealer in crockery, was chosen as fourth juror.

Brewers' Convention.

BALTIMORE, May 24.—The United States Brewers' association will begin a three days' convention in this city on Tuesday next. About three hundred members are expected to be present. Mr. William A. Miles, of New York, will preside. High license, prohibition and other subjects will be discussed. The local brewers have extensive preparations for the entertainment of the delegates.

Ended His Life with Morphine.

KOKOMO, Ind., May 24.—Jack Stephens, a man who has generally been considered a rough character, committed suicide yesterday afternoon, at his home, three miles northwest of this city, by taking a dose of morphine. He was thirty years of age, and leaves a wife, to whom he gave no reason for committing the act.

Burglars Caught in the Act.

NELSONVILLE, O., May 24.—About 11 o'clock last night Frank Richardson, burglarizing Juniper Bros. Lampman's store, was captured while attempting to escape through a back window well loaded with goods. His assistant fled, and three shots were fired after him, but the effects as yet are unknown.

Wrestler Goes to Wales.

GALENA, Ill., May 24.—Jack Carkeek, the well known wrestler, started to-day en route for Cornwall, Wales, where he is to meet the champion Cornish wrestler. The match takes place next month and is exciting great interest in the principality.

Annual Meeting of Friends.

NEW YORK, May 24.—The New York yearly meeting of Friends began yesterday at their meeting house in East Fifteenth street. Similar meetings were held in Brooklyn. Services were held morning, afternoon and evening. Many of the Quakers were present from Pennsylvania and other parts of the country.

## ACCIDENT ON THE OCEAN.

COLLISION BETWEEN THE CELTIC AND BRITANNIC STEAMSHIPS.

A Number of Passengers Killed and Many Others Seriously Injured—Both Vessels in Port—The Victims of the Wreck Buried at Sea—Details of the Disaster.

NEW YORK, May 24.—At 5 o'clock this morning the White Star line steamship Celtic, which on Thursday last crashed into her sister ship the Britannic, damaging her so badly as to necessitate her return to port and killing a number of steerage passengers, weighed anchor and started from her anchorage off Scotland Lightship to come up to this city. She crossed the bar at 5:31, and proceeded under steam to quarantine, where she anchored. After having been visited by the health officer, she proceeded on her way to her wharf at the foot of West Tenth street at 7 o'clock.

Reaching it a little before 9 o'clock, a motley crowd was gathered along the pier, and as soon as the two big gang planks were hoisted into position a rush was made to receive the unfortunate voyagers. The police force present was wholly inadequate and the mob rushed under the boundary ropes and up the gang planks. Handshaking, tears, embraces and general congratulations were the order of day. The Britannic remains at anchor off the light ship. The passengers who were not transported to this city this morning were brought up on the steamboat William Fletcher. It was officially stated at the office of the White Star line this morning that as far as known but four of the steerage passengers who were killed on deck by the flying debris were buried at sea. Some of the passengers, however, insist that there was a woman among the victims given a sea burial.

The official list of the injured includes Elizabeth Wainwright, of East Hampton, Mass.; Mary Griffin, of the Southport, England; David Ricketts, Chicago, eye-brow cut; M. Donohue, thigh broken; Mark Allen, finger smashed; William Labor, Queen county, Ireland, thigh dislocated; Patrick Burk, County Mayo, Ireland, foot and ribs injured; G. A. Robinson, aged thirteen years, compound fracture of the arm; John Burk, suffering from shock. He is a consumptive and his condition is quite serious.

The latest estimates place the number of persons killed at five and the injured at twenty-six. The first load of steerage passengers from the Celtic was landed at Castle Garden at 10 o'clock this morning. There were 900 of them in all. No one at the Steamship company's office could tell when the Britannic would arrive at her dock until Mr. Ismay, one of the firm, who had gone down to her in a tug, would return. Neither of the captains have made any statement. Their reports will be made in writing, and will undoubtedly be lengthy documents. The offices of the White Star company were crowded all morning with friends of the passengers in the Britannic and Celtic, making anxious inquiries. The majority of them were the friends of steerage passengers. Very little information was obtainable.

The passengers landed at Castle Garden did not seem any the worse for their experience. They were in a happy frame of mind and not at all affected by the accident. At the pier on West Tenth street those who had been transferred from the Britannic to the Celtic were huddled together and told to remain there by the company's servants until their baggage arrived. They had also been ordered to say nothing about the accident. The eager crowd packed the pier and the adjoining wharves all day, and gazed with curious eyes upon the big wound in the Celtic's bow. The stem was twisted clear round, and lay flat upon the port side. The hole in her forward compartment was large enough to admit a horse and cart, but not a drop of water had leaked through her second compartment.

The Britannic was heavily laden and the bows of the Celtic overlapped the bulkheads of her sister ship. She will be coffer-damned as soon as her cargo is discharged, and she may be able to sail in three weeks. The Britannic cannot be brought to this city until she is lightened. She will be dry-docked at the Erie basin, and it is expected will be repaired in about four weeks. The Arabic arrived this morning, and will be unloaded as soon as possible. Most of the Britannic's passengers will probably sail by other lines.

A CONDUCTOR'S GUN.

Dr. Mackey Attacks a Cripple and Gets Killed.

CHICAGO, May 24.—While standing on the platform of a crowded street car Daniel Mackey, a teamster, was fatally shot yesterday afternoon. His slayer was the conductor of the car, James English a cripple. Mackey's brother was recently discharged by the street car company for calling English a scab.

In the afternoon, in retaliation, English was assaulted by Mackey and knocked off the car. English immediately pulled a revolver and fired at Mackey, who was in the midst of a group of passengers on the moving car. A wild scamp to vacate the conveyance ensued, in which Mackey, though having received a bullet in the abdomen, endeavored to join. As he ran English again snapped the trigger and Mackey dropped dead, shot through the back. English surrendered himself to the police.

Five Persons Drowned.

ST. JOHNS, N. F., May 24.—The steamer Plover collided Saturday night in Trinity Bay with the schooner Trilix H., of Heart's Content. The schooner was sunk and five persons were drowned. The eleven others on board were rescued, including Capt. Percy. The drowned were two of his brothers, a niece, a policeman and a woman whose name is not learned, all of Trinity Bay.

CLEVELAND, O., May 24.—The annual convention of the Woman Suffrage association of Ohio will be held at Music hall Tuesday and Wednesday. There will be three sessions daily, and the evenings will be devoted to addresses by eminent speakers. Susan B. Anthony will be present, and the opposition to amend the constitution of the Ohio Woman Suffrage association will be considered.

## THE GREAT BOOM.

A Prominent Financier Predicts That There is Sure to Be a Collapse.

CINCINNATI, May 24.—A gentleman on 'change, well informed in regard to financial matters, made some very important statements in regard to the recent real estate boom. He said:

"I have ascertained that Bradstreets have been investigating the subject of booms by soliciting opinions from merchants and others in all parts of the country. They will probably announce that the real estate boom is the result of a very apparent cause. There is a superabundance of money to begin with, which has been withdrawn from securities. It is invariably the case when security investments are bearing a low rate of interest, as our United States three-per-cents are, and other securities are not considered permanent, money finds its way into real estate. Some time ago this process of transfer began, and created a demand. That has brought on the boom. Many people who are active financiers dislike investment in real estate, because it is not easily convertible. Yet speculation in real estate, when it becomes wild, is not so dangerous as it is in securities. A collapse cripples more than it kills. It results in comparatively few absolute failures. It is estimated that the real estate boom will continue for one or perhaps two years, and that real property will continue to advance before the time comes for a tumble. It is not believed that it will amount to a panic. Of course there will be vast losses and some who are caught with large obligations will go under. But real estate securities, you know, never become worthless. The man who invests in them knows just what incumbrance is on them, and loss is limited to depreciation in value. This investigation by the Bradstreets, if heeded, may cause men to hesitate and become more conservative in their investments."

A HINT OF BOODLE.

Probable Defeat of the Illinois Allen Land Bill.

CHICAGO, May 24.—Irish circles in this city are greatly aroused by the report from Springfield that questionable influences have been at work to defeat the passage of the alien land bill, and prominent Irish leaders are in communication with friendly members of the assembly and senate with the view of finding out the exact character of the colored man in the woodpile. The measure in question is specially aimed at Lord Scully, an Irish racketeer, who owns nearly fifty thousand acres in Logan county, and is said to rule his Illinois tenants very much as he does those in Ireland. The measures which have been introduced, and which, if passed, would make it impossible for an alien to hold land in the State, stood in a fair way to become law a month ago.

Then Scully's agent, one Fred Trapp, paid a hurried visit to Springfield, secured copies of the pending measures, had several mysterious conferences with certain people who are well known, and took the first steamer for Queenstown. Since then he and his representatives at the capital have put quite a neat little sum into the coffers of the cable company. It might be a coincidence, but it is certainly a peculiar one, that a few days ago, after the cable had been more than usually busy, the measures were sprung on the house and pigeon-holed for the season, at least, by being referred to a committee which has already more work on its hands than it can take care of before adjournment. Several Chicagoans identified with the Land league movement will go down to Springfield in the course of a few days, and start in on a still hunt, and if the information which they have received is verified, there is a good sized legislative sensation in store for the near future.

Mistaken for a Burglar.

CLEVELAND, O., May 24.—At midnight Saturday Patrick Corrigan, living at 38 Kentucky street, was awakened by some one trying to climb into the window. Without waking his wife he secured a pistol and fired two shots at the intruder, who fell to the ground outside. Rushing out he was horrified to find that the supposed robber was John Campbell, his wife's cousin. Corrigan gave himself up and is charged with murder, although Campbell is not yet dead.

Temporarily Settled.

PITTSBURGH, Pa., May 24.—The strike at Byer's Iron mill has been temporarily settled after lasting two weeks, and work was resumed this morning. The mill committee has agreed to waive the question as to the disputed point in the scale until the National convention, which meets here early in June.

Sporting Notes.

O'Leary won the fifty-four-hour walking match at Lincoln, Neb. Record 300 miles.

Yale college, with her great pitcher, Stagg, is winning the eastern college championship. Stagg has been offered a large salary to pitch for the Metropolitans.

Jack Bolin will languish 125 days in the Covington jail for trying to engage in a prize fight on the "dark and bloody ground" last winter.

Forty teams are entered in the team shoot Wednesday for the prizes offered by the Cincinnati merchants.

Six hundred riders were in line at the League of American Wheelmen's parade in St. Louis Saturday.

St. Louis still retains a strong grip on first place in the Association, while Detroit does likewise in the League.

Ohio League is agitating the subject of Sunday ball.

Davis, third baseman of the Baltimore, was fined \$75 for kicking and making a bluff to strike Umpire Jennings in Sunday's game at Cincinnati.

Mobile has dropped out of the Southern League and Birmingham takes her place. O'Neill, of St. Louis, heads the batting list in the Association for the first month with a percentage of 570.

SUNDAY BASE BALL.—Cincinnati 17, Baltimore 7; Louisville 6, Metropolitan 3; Brooklyn 9, St. Louis 5.

Frank Mitchell, a prominent young base ball pitcher, died of consumption at Springfield, O.

In a fight between Billy Wilson, of St. Paul, and Harry Woodson, the "Black Diamond," of Cincinnati, in Dakota county, Minn., Woodson was knocked out in the thirteenth round.

## Bradley's Blow and Bluster.

General Buckner is not "dodging," as the Daily Republican insinuates. He is too old a veteran to shirk, and Colonel Bradley is apt to find this out before the State campaign is ended. Does Bradley imagine the people of Kentucky are so easily bamboozled by his cards and letters of invitation to General Buckner? When that first invitation was received he was notified by the General that the question of a joint canvass would be left, so far as he was concerned, with the State Central Committee. Moreover Bradley knew that said committee was not to be called together until the 23d of May, and yet he comes out several days beforehand in another card, and with his usual blow and bluster informs the General that he can't wait any longer—he must do some talking—and that he would open the canvass on such and such a day, and would General Buckner please be on hand? We opine that the whole purpose of this last card, and of Bradley's haste and hurry, was to create the impression that the General was dodging. Bradley has been holding the Republican party up by the tail so long that he perhaps imagines that he can run the Democratic party to suit himself. The Colonel will learn that he's not running General Buckner's side of the fight this time.

## Honestly Administered.

The following from the Louisville Times is to the point and a little better than we could get it up ourself: "Mr. Bradley and his fellow-Republicans claim that there has been corruption in the management of Kentucky. They do not pretend to say who have been the beneficiaries of that corruption. They point to no man who has got rich by holding a State office. If they can find such a man, let them unmask him and place him upon defense. The truth is, there is no such person. The affairs of the State have been honestly administered, and Kentucky's financial condition at this time compares favorably with that of any State in the Union, while taxation is lower than in any State under Republican rule. These facts will be made plain to the people during the next two months, and, before August, Mr. Bradley will find that all the wind with which his speech is inflated will not prevent a signal collapse of his political aspirations."

CLEVELAND'S most bitter enemies are disappointed office seekers.

SENATORS KENNA and Faulkner, of West Virginia, and Senator Pasco, of Florida, are each less than forty years of age. They are the youngest members of the next Senate.

THE Ashland Independent has changed hands again, and is now edited by S. G. Thrall. The Independent seems to be rather fickle-hearted for its age. It changes with the seasons.

NINE million dollars is a pretty snug sum to be paid out for pensions in one day, but that is the amount of the warrants issued by the Treasury Department on the 20th of this month.

THE Daily Republican says that Colonel Billie O. Bradley is "a man of limitless earnestness." That may be, but the Republican will please observe that it takes votes to elect a Governor.

THE Flemingsburg Times-Democrat says that "our friend Davis, of the Republican, 'knew' it would turn out that way, but his prophetic soul must have misled him"—on the gas question.

AN exchange remarks that "Grover Cleveland is the bravest man who ever sat in the Presidential chair." Kicking on the part of disappointed office-seekers can not swerve him from his sense of duty.

"AN old-fashioned Kentucky Democratic barbecue is on the tapis," says the Lexington press. It will be held near Muir's Station, Fayette County, and arrangements will be made to feed twenty-five thousand people. The inimitable Jaubert will, of course, be master of ceremonies, and Carlisle and other Democrats of a national reputation will enlighten the multitude.

THE Bourbon News and the Lexington Transcript are respectfully informed that "the controversy which has been going on daily between the Maysville papers for several months," was commenced by the Republican. The BULLETIN is old enough to behave itself, and always does so. Moreover, it is generally able to take care of itself when attacked by any of its contemporaries. We might add that the controversy alluded to has been a "winning game" for the BULLETIN.

MAT O'DOHERTY, Republican nominee for Lieutenant Governor, admits that he voted for Prohibition, but says that it is a personal matter and nobody else's business. The Germans of Louisville, however, think that it is some one else's business, and, we learn, are preparing to slaughter O'Doherty at the August election. We are also told that the Germans make up the biggest part of the Republican party in that city.

AMONG the new directors of the County Infirmary, none are prouder of the honor than M. D. Farrow, Esq., of the Orangeburg precinct. It must be gratifying to him personally, too, that he was chosen without opposition, something, we believe, that has never occurred with a new member in the Board's elections. Esquire Farrow is a good citizen, an honest and square-toed Democrat, who will always be found true to any trust confided to him.

A SPECIAL from Lexington says that "a Grand Army post of three hundred colored ex-soldiers was mustered in to-night. It appears to be a part of the Republican plan to help out Colonel Wm. O. Bradley, candidate for Governor. The mustering officer is said to be from Bradley's town." If this is to be Colonel Bradley's scheme in the coming campaign, it is well enough for the Democrats to know it at once. Moreover, if the coming election is to be fought on such issues, the ex-Confederates will knock Billie O. Bradley silly in August.

## Most Sensible Methods of Insurance.

My readers will admit that ever since I have been giving them the benefit of my researches in the various fields which I have traversed I have devoted a great deal of attention to the subject of life insurance. I agree with the late pastor of Plymouth Church that every family man of moderate means should insure his life, and the fact that the National Benefit Society, No. 32 Liberty street, was offering special inducements to those wishing to insure their lives led me to inquire into the methods and resources of this company. It is a sound company, of that I am sufficiently assured from the simple reason that Mr. George Merrill, who was for many years prominent in the East India trade, is its President; Mr. Stephen Mills, of the well-known firm of Stephen H. Mills & Co., its Vice President; Mr. Frank Delano, an insurance man, whom I have known for years, its Secretary; and from the further evidence of such gentlemen as Mr. David Bingham, of the great grain house of Bingham Bros., of the Produce Exchange, and Dr. Funk, of the publishing firm of Funk & Wagnalls, and editor of the Voice, being among its directors. This company is based on the assessment plan, but it offers opportunities which other assessment companies do not. There are three methods of insurance in the company, but in each the ages of policy-holders very wisely separate them into classes ranging from the age of eighteen to the age of fifty-four. The first method is known as the tontine or club insurance, by which any ten persons may form a club, and each holding a policy receives on the death of any member an equal share of the amount for which the person is insured. I like this innovation, and give it my hearty indorsement, for I know that many participants have received benefits of from \$500 to \$3,000 at a cost of from \$50 to \$250.

And now for the second form of insurance. According to statistics temperance people live longer than those using alcoholic stimulants, and for this reason this company makes a distinction in their insurance and gives them the benefit of particularly advantageous rates. The last method is the regularly assessment insurance, graded on the ages of applicants, so that all the members of the society reap the maximum of benefits. These three methods of insurance are the most ingenious and beneficent I have yet heard of, and I take pleasure in so informing my readers.—New York World.

## WILL NOT BE THERE.

The President and Mrs. Cleveland Unable to Attend the Monument Dedication.

NEW HAVEN, Conn., May 24.—The President and Mrs. Cleveland will be unable to attend the monument dedication services on June 17 for reasons given in the following letter received early this morning:

"EXECUTIVE MANSION, WASHINGTON, May 20.

"To Hon. Samuel A. York, Mayor and Chairman, etc.:

"The invitation which was tendered me a few weeks ago to be present on the occasion of the dedication of the Soldiers' and Sailors' monument, at New Haven, on the 17th day of June next, has remained unanswered in the hope that I might be able to accept the same, when other plans and arrangements were definitely fixed. I sincerely regret that I am now obliged to relinquish the anticipation of joining in these interesting exercises, which will serve as a tribute of love and veneration to the patriotism of the sons of Connecticut, illustrated in all the wars of our country. The citizens of a state so rich as yours in honorable traditions, so related to heroic sacrifice, and so full of the sturdy independence which a hardy love of liberty teaches, do well to erect to the memory of her fallen heroes, monuments which shall constantly remind future generations that all they have and all they enjoy was dearly bought, and that their inheritance of peaceful prosperity is charged with an obligation of honor and affection for those from whom it descended, and with a duty of its preservation by the exercise of patriotic citizenship. Yours very truly,

GROVER CLEVELAND."

K. T. Conelave at Philadelphia.

PHILADELPHIA, May 24.—The city is crowded with Knights Templars from every section of the state, who are here to attend the annual convocation of the grand commandery of Pennsylvania. At noon the Academy of Music was opened for a general reception to the visitors and their ladies, which will continue until 11:30 p. m. Tomorrow the annual parade will take place, followed by the business meeting. During the convocation Arabic hall on Broad street, above Vine, will be formally opened. This hall has been erected by Lu Lu Temple of the Ancient Arabic Order of Nobles of the mystic shrine. This order owes its origin to William J. Florence, the actor. While traveling in Egypt some time ago he discovered Masonic mysteries before unknown. He made them known upon his return to this country, and the order was brought into existence. None but Knights Templars or thirty-second degree Masons can become members.

## Lake Steamer Ashore.

SAULT STE. MARIE, May 24.—The steamer & Chrisholm arrived down yesterday afternoon, and reported the steamer Wallula ashore on Pancake shoal, Lake Superior. She lies in an extremely exposed position, and is likely to sustain much damage if the threatening storm develops. Capt. Stone is unable to determine whether or not the Wallula's consort, the M. E. Tremble and Wadena, are ashore. The Wallula is ore laden, and bound from Two Harbors to Cleveland. She is owned by Thomas Wilson, of Cleveland, and is valued at \$110,000. Pancake shoal is in Canadian waters, fifteen miles northwest of White Fish point. Owing to stringent wrecking laws, assistance cannot be sent from here, nor can American steamers render any assistance without being subject to severe penalty.

## The Verdict Unanimous.

W. D. Sult, Druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles and was cured of rheumatism of ten years' standing." Abraham Hare, druggist, Bellville, Ohio, affirms: "The best selling medicine I have ever handled in my twenty years' experience is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the liver, kidneys or blood. Only half a dollar a bottle at J. O. Pecor & Co.'s and S. P. Campbell & Co.'s, Aberdeen, O.

For all female weaknesses it is a certain cure. All druggists.

## Probable Suicide.

While the Louis A. Sherley was on her down trip last night, one of her passengers jumped overboard at a point a short distance below Manchester, and, it is thought, was drowned. The party is described as a young man, about thirty years of age. He carried with him a violin, and said he had been following a musician's life for several years. His name has not been learned. He informed some of the passengers beforehand that his parents lived in Cincinnati, and that he hadn't seen them for twelve years. He was en route to that city to pay them a visit.

The above particulars were obtained from a party who has been employed on the Sherley, and who stopped off here on the down trip this morning about four o'clock.

C. P. HUNTINGTON, the railroad king, was on board the steamer Britannic, of the White Star Line, which left New York for Europe May 8th, and collided Thursday morning with the Celtic, of the same line, off Nantucket during a dense fog. He was fortunate enough to escape any injury, and has returned to New York.

An improvement is reported in Garrett McDaniel's mental condition by the officials of the asylum at Lexington, where he has been under treatment for the past two or three months. He recognized his brother, Wat, and some of his friends, who visited the asylum the other day, and talked as rationally as ever.

ABOUT two weeks ago one hundred Italians were brought to Newport to work on the line of the Maysville and Big Sandy Railroad. Since their arrival there has been a great deal of dissatisfaction among the negroes who were also working on the road, and the other morning about thirty colored men and three white men left, saying they would not work longer alongside of the sons of sunny Italy, who, they claim, are "a lousy set."

The Cincinnati Enquirer, of a recent date, says: "Jule Kampe, the well known hotel clerk who was at the Gibson House for so many years, is improving. Stanton, former editor of the BULLETIN, and his friends and relatives in Maysville will be gratified to learn of his recovery.

Duncan is in the jail here, having been brought to this place for safe keeping at the close of the last term of the Nicholas Circuit Court. He was convicted of house-breaking and given two years in the penitentiary. His offense was committed near the Lower Blue Licks, where he broke into a dwelling house one day and stole a lot of silverware, while the occupants were away from home. He will be taken to the penitentiary as soon as the necessary papers are forwarded from the Court of Appeals.

I used, instead, three bottles of Electric Bitters and seven boxes Bucklen's Arnica Salve, and my leg is now sound and well."

## NEWS FROM OVER THE SEA

### DIFFICULTY OF FORMING THE NEW FRENCH CABINET.

**De Freycinet's Refusal to Form a Ministry is Believed to Be on Account of General Boulanger—The Czar Arrives at Serpukhoff—Other Foreign Notes.**

PARIS, May 24.—De Freycinet's refusal to form a ministry means that he won't have Gen. Boulanger in it. The only man who can control Boulanger is Clemenceau, but the latter isn't likely to be called, as he is too radical. Clemenceau made Boulanger, and the latter is still loyal to his master, but his future action it is impossible to define, as he deserted his royal friend and benefactor, d'Aumale. The chances are that Boulanger will be in any cabinet that is formed. To omit him would raise a howl and make Boulanger still more popular.

M. Clemenceau yesterday told M. Rouvier that he would not promise to support any cabinet, but was perfectly willing to take the office himself with young and new men. President Grevy still refuses to call M. Clemenceau, although he has seen several others. It is expected that the president will again ask M. De Freycinet to form a ministry and that the chamber will adjourn for another week.

Gen. Boulanger's candidature for the Seine was illegal. His partisans insisted that he should stand in order to show his popularity. M. Mesurier is a Socialist. The vote stood: Mesurier, 198,397; Boulanger, 33,038.

**Belgian Miners' Troubles.**  
BRUSSELS, May 24.—A meeting of the Workingmen's party was held here yesterday. Many of the delegates were not in favor of a general strike, but said they would favor such a movement if the majority so decided. It was resolved to hold daily demonstrations in favor of universal suffrage and the granting of amnesty to the persons now imprisoned for participation in the riots of 1896. A final meeting of the delegates will be held to-day, when the question of a general strike will be decided. At several meetings held at Charleroi the proposal for a general strike was approved. The burgomaster of Charleroi has asked for a battery of artillery.

The Novoe Vremya published a letter signed by Gen. Tcherniaeff advising Russia to give up the idea that the key of the Resphorus is sought by the government at Vienna and turn all her thoughts to the Rhine and the Oder, place her arch enemy between the hammer and the anvil and profit by the present favorable circumstances to avenge herself for the work of the Berlin congress.

**Father Keller at Home.**  
CORK, May 24.—Father Keller had an ovation at Youghal on his return there. The horses were taken from his carriage, and thousands of people cheered and blessed him. Women fell on their knees and wept tears of joy. The pathway was strewn with flowers and laurels. Arches of flags, principally American, crossed the streets. The houses were decorated with green branches and bannors.

**Might Have Been Spared.**  
ST. PETERSBURG, May 24.—It is announced that a pardon would have been extended to Oulianoff, one of the men executed last week for connection with the plot to kill the czar had he asked for it. He refused to make application for clemency although his mother implored him to do so. All those executed met death with heroic composure.

While in that place it is probable he set fire to the straw in the cell and was most horribly burned before he could be rescued. After suffering terrible agonies he died from his injuries Sunday night. He leaves a wife and five children.
